Notes from the academic advisor regarding course additions to equal the required degree total, endorsed extensions of time for the student, prerequisite classes, or any matter related to this study plan:

The graduate planned program of study is an important document. It represents an official agreement between the student and the University, with the academic advisor and dean acting in its behalf, regarding courses and other requirements which must be completed prior to graduation or program conclusion. A planned program is not official until the advisor and the dean sign it. **A planned program must be approved before completion of 15 course credits.** Fully approved copies are provided to the student and the academic advisor. A signed original is retained in the student's University permanent file. No more than 9 credits of 400-level courses may be included in a graduate degree or post-master's program.
